Daily writing prompt

Describe one of your favorite moments.

[View all responses](#)

The time whenever I spent with him makes the moments favourite. It's not an easy thing to see him. I would be excited, feared, thrilled and lot of mixed feel till I see him. More than spending the time, the process and nervous before we meet hits me in different feel...It might be very simple thing but story behind always tough. Sometimes all we need to feel those crazy moments...Right!!!

Prompt...
